WE ARE PREPACK

Prepack is a 'can do' organisation. We tailor our flexible operation to deliver your needs anywhere in the world, whether you need ration packs for combat personnel, medical officer's kits, school stationary packs or humanitarian aid. The Possibilities are endless. Our aim is simple – to create convenience for you and your customers.

There is no substitute for experience....

Prepack Limited was established in 2007 as a joint venture between Multi-Pack Ltd and Prepared Foods Processing Ltd. Both companies had been individually involved in the production and supply of ration pack components to various defence force organisations as well as various police, fire service and emergency service organisations in the Australasian/pacific region. Prepack combined the two companies 60+ years experience in the defence and emergency services industry to build a purpose designed facility to provide lean, flexible processing and delivery of operational ration packs to defence and emergency service organisations worldwide. Prepack has recently supplied emergency relief meals to Puerto Rico as part of the response effort coordinated by the US Federal Emergency Management Agency.

*'Our business
though is not the
product.'*

WHAT WE DO

Prepacks formative years have proven effective. Today we pack and distribute over 400,000 ration packs per year to the Australian Defence Force alone. The packs are collated across eight specialist menus and three configurations to their exacting standards. Prepack has just been awarded a contract extension based on our impeccable service.

Our business though is not the product. It is our flexible process and our ability to adapt quickly to your requirements. We are able to pack a wide range of products from the medical kits, school stationary, crime scene kits, emergency preparedness packs (individual and corporate) and humanitarian aid packs to name but a few. The process is quickly scalable through our physical infrastructure, talented people and our access to the best suppliers.

WE'RE FLEXIBLE

We contract pack around 40,000 units for one of our customers who supplies the Country Fire Association in Australia. In the summer of 2012 – 2013, the Australian fires meant that extra support was needed – an additional 57,500 units over three months. We were able to quickly scale up the production to meet all the delivery objectives without compromising our existing commitments. All orders were dispatched within five days of order receipt, some by air and some by sea to meet the urgent deadlines.

Prepack can operate 4 packing lines assembling 4 different menus per day. It has a 1 shift production capacity of up to 3,304,000 ORP's pa.

FLEXIBILITY

Our relationships with Multi-Pack Limited and Prepared Foods Limited Mean that we are able to provide tailored Menus devised by food technologists To meet your dietary requirements. In Addition, we have similar expertise on the Doorstep in a range of areas including sport And exercise, food, nutrition, health, product Development, education and defence. When Combined with our operational structure, this Expertise means we can quickly adapt to Supply and fulfil specific needs for a variety Of different markets.

SHORT DELIVERY CYCLE

To provide a short cycle time from request to delivery requires a mixture of experience, processes, procedures and most importantly a robust supply chain. Prepack is built upon a network of trusted suppliers across different industry in Australia, New Zealand, Asia, The Middle East, Europe and Africa. When coupled with the significant relationships we've built with international logistics companies, and our location in the heart of "logistics land", New Zealand, you benefit from a fast and assured turnaround of your products

ACCESS TO DECISION MAKERS FOR FAST RESPONSES

The Prepack business model is built on the understanding that working in challenging environments or during times of need, relies on rapid response. Our structured management gives you access to key decision makers, who are able to work quickly to achieve your timeframes and objectives.

EXPERIENCE IN EXPORT TO WORLDWIDE DESTINATIONS

The team at Prepack have significant combined Experience in dealing with export to worldwide Destinations, as well as working with governments, NATO and the UN. They are equally experienced in Relationships with organisations large and small.

ABILITY TO PROVIDE BESPOKE PACKAGING SOLUTIONS

In working with the Australian Defence Force, we have generated the skills and expertise to provide bespoke packaging solutions to exacting standards. This can be from simple branding to complex Container design for a range of industries.

STERILE ENVIRONMENT FOR MEDICAL AND FORNSIC APPLICATIONS

We already compile medical packs in our climate - controlled environment. It makes it ideal for expansion Into other lines where contamination control is paramount, such as for forensic kits.

Commitment to Innovation...

OUR PROCESS

DISCUSS

We take the time to discuss your needs. This is done from a product, service and technical aspect to ensure that we can satisfy all your requirements.

DESIGN

Prepack has a team of experts who can design the needs of each pack.

DEVELOP

Once we have established your needs and designed your product, our development team takes over to make it all happen.

DELIVER

We liaise with our distribution partners to deliver on time locally and internationally.
